RULES AND REGULATIONS

This document sets out certain Association rules and regulations which address various topics mentioned herein. However, these do not constitute all of the Association's rules and regulations. In addition to these, the Association has separate rules and regulations addressing assessment collection policies, elections, architectural issues, and other matters. Complete copies of all of the Association's rules and regulations may be obtained on request from the Association's Management.

Approved by the Board of Directors on July 28, 2015

The Rules and Regulations of The Grande South at Santa Fe Place Homeowners Association (the "Association") are approved by the Board of Directors of the Association (the "Board") as required by the Covenants, Conditions, and Restrictions ("CC&Rs").

These Rules and Regulations, being part of the Association's Governing Documents, are binding on all Owners, residents, and Invitees. Their purpose is to establish the basis for the maintenance of a safe, congenial, orderly, and attractive environment in which there is respect for the wellbeing of others and for the common property of the Association.

A Unit Owner is ultimately responsible for any consequences following upon Violations of these rules by the resident and the resident's family, Invitees, and animals.

The Board has instructed the Association's Management Company and their employees and security contractors to require compliance with the Association's operating rules. Reports of Violations should be reported to the Concierge at the front desk in the lobby.

Anyone having questions about the Association's operating rules or lacking copies of the relevant Association documents should contact the Concierge.

- e) Cancellations made with less than 5 business days notice will forfeit the rental charge and the reserved nights will be charged against the yearly allowance of the responsible resident and that resident will be credited with a short-notice cancellation.
- f) Accumulation of 2 short-notice cancellations in a calendar year, regardless of the number of days reserved, will make that resident ineligible for future reservations for the remainder of that year.
- g) Responsible residents may reserve the Guest Unit for only 1 Association Holiday Period, or part thereof, per year; however, if, 7 days in advance of a proposed reservation, the Guest Unit is unreserved, a reservation may be made regardless of this restriction.
- h) Any reservations in place at the time of close of escrow for a Unit will be canceled without penalty.
- i) Any new resident will have a full complement of reservation allowances, regardless of any allowances used in the calendar year by a previous occupant of the new resident’s Unit.

(ii) Guest Unit usage

- a) Management or Staff will conduct an inventory of Guest Unit items and determine the condition of the Guest Unit prior to guest check in and just after check out. - b) Occupants of the Guest Unit must check in after 3:00pm and must check out no later than 11:00am.
- c) No pets are allowed in the Guest Unit, and no Smoking is allowed in the Guest Unit or on its Balcony. A minimum of a \$250 deep cleaning fee to sanitize the Guest Unit and possible fines will be assessed to the responsible resident’s Unit for Violation of this rule.

RULES AND REGULATIONS

RULES GOVERNING VENDORS AS INVITEES

D. RULES GOVERNING VENDORS AS INVITEES

Contractors, subcontractors, service providers, and their associates and employees working on or in a Unit (all referred to here as “vendors”) are on the premises by the Unit Owner’s instruction, invitation, or permission, and so the Unit Owner is responsible for any consequences following upon Violations of these rules by these vendors. Note that the Common Area rules, including those on Nuisances, apply to vendors and their vehicles.

Section 18. General Rules for Vendors

Since vendors are not residents, they cannot be assumed to come with foreknowledge of the Association’s operating rules that affect them. Therefore, it is incumbent upon the resident to ensure that they do not violate, even if unintentionally, these operating rules.

- a) All vendors must check in with the Concierge upon arriving and leaving.
- b) A vendor may park an unloaded vehicle that does not exceed a height of 7 feet in a space owned or leased by the resident if authorized by that resident.
- c) Vendors may not bring their pets on site.
- d) Vendors are prohibited from eating meals, taking breaks, or Smoking in the Common Areas.
- e) Vendors must wear shoes, shirt, and pants on the property at all times.
- f) Vendors must use their own equipment. No equipment or tools that are the property of the Association are to be used at any time.
- g) No vendor may use the power from the hallways or any other Common Area.

Section 19. Construction Workers

Construction workers are a special case because their impact on the Building and its residents will certainly extend outside of the Unit in which the construction is being carried out. It is incumbent upon the Owner of the Unit to minimize noise and dust, to ensure that the Common Areas are not damaged by transit of equipment and debris, and that residents are treated by workers with consideration and politeness.

- a) Advance written approval of the Architectural Committee is required for any in-Unit construction work.
- b) Working hours are limited to Monday through Friday, 8:00am to 5:00pm.
- c) No work is allowed on weekends or on Association Holidays.
- d) All Common Area floors are to be protected with carpet runners or similar protection from the elevator to the Unit. The protective coverings must be removed and the floor cleaned by 5:00pm each day, unless exception is specifically granted by Management.
- e) All trash and debris, including paint and chemical residuals, must be removed from the Building daily. Neither the trash chute nor the dumpsters on parking level 1 may be used for disposal of construction debris. Paint cleanup residue and construction liquid may never be poured down drains or into toilets in the Unit or in Common Areas.
- f) Owners agree to hold the Association harmless against liability for (i) injury to, death of, or damage to property of persons to the extent caused by the Owner, workers, designer or any of their agents or employees, and (ii) mechanics liens on the Common Area arising out of or resulting from any work.
- g) All contractors and subcontractors (including the Unit Owner if acting as contractor) must be licensed in the state of California and must submit certified proof to Management, before any work may commence, of licensing, worker’s compensation insurance, and comprehensive general commercial liability and property damage insurance, with limits of no less than \$1,000,000 per occurrence. The Association and the Management Company must be named as an additional insureds on these certificates of insurance.

The Grande South at Santa Fe Place Homeowners Association

RULES AND REGULATIONS

RULES GOVERNING VENDORS AS INVITEES

- h) The Association has the right to stop any work that is in Violation of these regulations, is creating a fire or safety hazard, is interfering with activities in the Common Areas, or does not have approval by the Architectural Committee.
- i) The front door of the Unit must be kept closed during construction.
- j) Smoke detectors located in the Common Area corridors adjacent to the Unit must be covered and protected on a daily basis and must be uncovered each night. The Unit Owner must arrange with Management to carry out this requirement.
- k) Any transport of tools or equipment must be by hand or using a padded elevator reserved in advance with the Concierge.

Section 20. Service Providers

Service providers include appliance, utility, and internet repair persons, housekeepers, medical service personnel, and dog walkers. It is incumbent upon the Owner of the Unit to ensure that the Common Areas are not damaged by transit of service providers' equipment, and that residents are treated by service providers with consideration and politeness. It is understood that, in the case of an emergency, any restrictions here on time limits for emergency service providers will be waived.

RULES AND REGULATIONS

RULES GOVERNING SALES AND LEASES

E. RULES GOVERNING SALES AND LEASES

Changes of Unit occupancy are inevitable, and the following rules are intended to allow such transfers to be carried out efficiently while minimizing the impact on other residents, to ensure that the proper information is provided for the updating of Association records, and to compensate the Association for the facilitation of the process.

Section 21. Sales and Leasing Agents

Since real estate brokers, agents, and salesmen are not residents, they cannot be assumed to come with foreknowledge of the Association's operating rules that affect them. Therefore, it is incumbent upon the Unit Owner to ensure that they do not violate, even if unintentionally, these operating rules.

- a) Units may be shown between the hours of 8:00am and 8:00pm.
- b) Lockboxes may not be placed on doorknobs or attached to any Common Area component other than the facility provided in the designated area in the service corridor.
- c) There shall be no open houses.
- d) Broker caravans must be arranged at least 48 hours in advance through the Concierge. The listing agent must provide, in addition to an agent inside the Unit, an agent in the lobby to greet and direct the caravan to the Unit.
- e) Broker caravans are prohibited on weekends and on Association Holidays.
- f) All visiting agents must register with the Concierge.
- g) No loitering by brokers or agents in the lobby or in any other part of the Common Area.

Section 22. Unit Leases

Rules governing leases are primarily designed to support the maintenance of this Building as a residential facility, and therefore to prevent the marketing of Units by landlords for transient occupancy or for exclusively business use. It is necessary also that the Association's records accurately reflect the identities of current Tenants since, for many aspects of residence, no distinction is made between Owners and Tenants. When a Unit is under lease, the Owner forfeits his right to use Amenities.

- a) The Unit shall be leased for use for residential purposes only, except that a Unit may be used incidentally for the purpose of operating a home-based small business if, and only if: the business is operated solely within the Unit; the business is limited to arts and crafts, the rendition of professional services, or other similar activities; and the business is operated by a person whose principal residence is the Unit.
- b) Any lease must be for the entire Unit.
- c) Any lease shall be in writing, shall provide that the lease is subject to the Association Governing Documents, shall prohibit subleasing, and shall provide that failure to comply with any provisions of the Governing Documents shall be a default under the terms of the lease.
- d) A copy of the Association's Governing Documents must be provided to each Tenant by the Unit Owner.
- e) A Tenant shall have no obligation to the Association to pay assessments imposed by the Association nor shall have any voting rights in the Association.
- f) The initial length of lease agreements will be not less than 12 months.
- g) All Owners or their agents who lease their Units must complete and return the required lease packet, specifying, among other things, Tenant names and contact numbers, as well as a copy of the lease, to Management prior to Tenant occupancy.
- h) Elevator reservations, or any other Building preparation for move-in, will not be allowed until Management has received a completed lease packet and related change-of-occupancy fee.

RULES AND REGULATIONS

Section 23. Change of Occupancy Fee

A fee is payable to the Association on change of occupancy, the amount of which can be obtained from the Concierge. It is non-refundable, and will apply to all new changes of occupancy regardless of whether reserved elevator use or other special services are required.

- a) In the case of a change of ownership, the fee will be charged to the new Owner and must be paid prior to move-in.
- b) In the case of a lease, the fee will be charged to the Owner and must be paid prior to Tenant move-in.
- c) Any damage to any Common Area property related to the change of occupancy is not covered by the fee and will be assessed separately.

RULES AND REGULATIONS

IN-UNIT PRECAUTIONS AND PREVENTIVE MEASURES

F. IN-UNIT PRECAUTIONS AND PREVENTIVE MEASURES

There are certain cases requiring action where Association property is involved or where actions taken or alterations made within the Unit may affect other residents or the appearance of the Building.

Section 24. Garbage Disposal Use

You, as well as your neighbors on the lower floors, suffer when the wrong things are put into the drains, whether through the garbage disposal or down the drain. Drain cleaning vendors have found pieces from a steel wool pad, dental floss, vegetable peelings, and grease in drain lines. Whatever is placed in the garbage disposal or your drain may cause your drain line or your neighbors' to back up.

Do's:

- First, turn on a moderate to strong flow of cold water and then turn on the disposal.
- Place food to be disposed of in the disposal.
- Continue running cold water for 15 seconds after grinding is done to flush the drain line.

Don'ts:

- Don't use hot water.
- Don't turn off the disposal until grinding is completed and only the sound of the motor and water is heard.
- Don't allow grease or fat to go into your disposal or your drain, because it would wreak havoc on your drain and the Building drain. Pour grease and fat into a container and refrigerate until it becomes solid, then place it in the trash.
- Don't fill the disposal with vegetable peels (e.g., potato peelings), because when ground they are likely to stop in the drain line.
- Don't grind extremely fibrous materials such as corn husks or artichoke leaves.
- Don't put pasta or rice down the disposal, as it can turn into a hard blockage in the line.
- Don't put coffee grounds or egg shells into the disposal, as they may jam the disposal.
- Don't put steel wool pads in the garbage disposal or dental floss down the drain.
- Don't put drain cleaner into the garbage disposal. It may damage the disposal and could injure someone clearing a stoppage.

If you notice your drains are draining slowly, this may be early warning of trouble ahead. Notify Management when this first occurs so they can attempt to prevent a bigger problem for you and your neighbors. If you have household help, make sure they understand these Do's and Don'ts.

Section 25. Annual HVAC and Plumbing Inspection

Concurrent with the time the Association services the in-unit HVAC equipment, it will conduct a limited inspection of toilet tanks and water lines to all sinks, toilets, and appliances for leaks and for signs of wear and aging to lines, hoses, and seals, which could lead to near-term leaks. This limited inspection is being done not only for the purpose of mitigating the risks of a safety hazard and your unit being flooded, but also to mitigate the risk of the units below you being flooded. Further, prevention of unintended loss of water is a good conservation practice. Owners and residents will receive a same-day report of the results of the limited inspection.

- a) The annual inspection is a requirement. If the entire inspection was missed because entry to the unit was prohibited by the resident, or if some component could not be inspected because access was blocked, then another inspection must be made within 30 days at Owner's expense using the Association's designated inspectors.**
- b) All sinks, toilets, and appliances must be retrofitted with steel braided hoses at Owner's expense if not already done.**

The Grande South at Santa Fe Place Homeowners Association

RULES AND REGULATIONS

IN-UNIT PRECAUTIONS AND PREVENTIVE MEASURES

- c) **The existing steel braided hoses (which have an estimated useful life of 8-10 years) should be changed by a certified appliance specialist or certified plumber at least every 10 years. Noncompliance with this rule will be treated as negligence by the Owner.**
- d) **Owners must have all required repairs made within 30 days by a licensed reputable plumber experienced with servicing high-rise condominium buildings.**
- e) Once repairs are completed, the owner must provide Management with proof of repair in the form of a copy of the vendor's dated invoice listing the completed repairs.
- f) Failure to have required repairs made within 30 days will result in an automatic call to an executive session of the Board. Repeated failures to have required repairs made may result in assessments of monetary fines.

(This limited inspection is not meant for the Owner or resident to rely on as a guarantee that no leaks will occur in their Unit. Owners are responsible for all leaks occurring within their Unit. Further, any time an Owner believes it is best to additionally conduct his own inspection and to move appliances for the purpose of conducting a more complete inspection, he should do so.)

Section 26. Air Conditioner Hoses

These steel braided hoses are not accessible except to licensed HVAC professionals. Under no circumstances may these hoses be replaced without prior authorization by Management.

Section 27. Water Leak Detection System

Each Unit is equipped with a water leak sensing system, consisting of a base station, which is connected to a dedicated phone line in your Unit, and several leak detection sensors. When the sensor detects water, a signal is sent from the sensor to the base station. The base station sounds an alarm, and alerts the Concierge with a phone call and email. The Concierge attempts to make contact with the Unit resident to determine if there is an active leak. If no answer, Management will permit Security to use the emergency key on file to access the Unit to determine if there is a leak.

Water detection sensors are located under the refrigerator (typically behind the kick plate), dishwasher, toilets, HVAC closets, and washer/dryer. The base station is typically located in the hall closet, but sometimes in the master bedroom closet or kitchen. Floor plans showing the locations of sensors and base stations are posted on the Association's web site.

- a) The water detection devices and base station must not be tampered with, disabled, or moved.
- b) Missing or damaged water detection sensors must be replaced at the cost of the Unit Owner. (The Association is responsible for sensors that malfunction or stop responding.) If payment is not sent directly to the vendor, Management will call the Owner to hearing in order to place a maintenance assessment for the cost of the replacement sensor on the Owner's account.
- c) The vendor monitors the system remotely and alerts Management of any inconsistencies or issues. Management will notify residents of necessary entry into the Unit in order to repair a sensor or base station.

No window tinting may be applied without Architectural Committee approval in writing.

G. MANAGEMENT ISSUES

Management is authorized by the Board with carrying out the day-to-day tasks involved in managing the Building and grounds. To this end, certain procedures are implemented requiring the cooperation of residents.

Section 29. Respect for Staff

In performing their duties, including administering the Association's operating rules, Management and Staff are entitled to a proper measure of respect and understanding. If an Owner or resident disagrees with a rule or is dissatisfied with the Staff's performance, they should discuss the matter directly with the Manager or with the Association's Board at its next executive session. Violation of the following rules will result in an automatic call of the Owner to an executive session of the Association's Board of Directors.

- a) Coercing, bullying, berating, or other physical or verbal abusing of Management or Staff is not permitted.
- b) It is not permissible to attempt to induce Management or Staff to bend or ignore rules.

Section 30. Front Desk Policy

The front desk in the lobby is staffed 24 hours per day, 7 days per week. It provides a Concierge service for residents from 7:00am to 11:00pm, and it is the preferred focal point for resident requests, suggestions, or complaints to Management.

- a) Items left with the Concierge are left at the Owner's or resident's own risk. The Association is not liable for any items left at the desk for any reason.
- b) Residents may deposit Unit or other keys with the Concierge, but they must be picked up within 24 hours of deposit. The resident must provide the Concierge with the name of the person or company that will be picking up the keys, and picture identification will be required in order for the Concierge to release those keys to the authorized person. Keys will not be released to anyone other than the authorized person or company. The Concierge will not distribute emergency keys to vendors or guests.
- c) Keys that are not picked up within 24 hours will be logged in as a package and will then only be released to the resident.
- d) Residents requiring keys to be deposited for longer than 24 hours may utilize a lockbox of their own provision which must be placed in the facility provided in the designated area in the service corridor.
- e) Anyone needing to access the lockbox area must provide appropriate identification and sign in with the Concierge for access and sign out as they leave.
- f) The Concierge will notify the resident of any package delivery. Please pick up packages within 10 days.
- g) The front desk is closed for parking pass issuance, reservations, item drop-offs and pick-ups, and delivery and retrieval of packages between 11:00pm and 7:00am.
- h) Found items, if not claimed within 30 days, will be donated.

Section 31. Emergency Entry

In the event of an emergency, Management, Staff, and emergency personnel shall have authorization to enter a Unit using the emergency key. If the key is unavailable or obsolete, forcible entry will be made and damages incurred are the responsibility of the resident; except that, in the event that the emergency entry is not the direct result of a resident maintenance item or action, the Association will be responsible for damages caused by the Association to the Unit.
